## Public Libraries

**Public Libraries** is the quarterly journal that keeps members of the Public Library Association (PLA) up-to-date on developments and issues in public libraries. For members, it's free—and now **Public Libraries** is available by subscription to librarians, trustees, friends, and libraries that share an interest in public libraries but are not PLA members. A one-year subscription is \$18; a two-year subscription is \$30.

**Practical information and current issue:** are found in articles such as "How to Promote Trustee Effectiveness", and "The Public Library: A Resource Center for Parents..." to "The Public Library Database" and "Why You Must Know Your Library's Mission."

**Planning and evaluation** has replaced the Planning Process column to expand the support to public librarians and trustees responsible for

improved public library service. The column will continue to include articles that complement *A Planning Process for Public Libraries* and *Output Measures for Public Libraries*. Recent issues have included "Guidelines for Preplanning" and "The Planning Process for Public Libraries: A Context and Some Reflections."

**Regular columns include:** Keep on Learning; Public Laws/Public Libraries; Service to Children; A Message on the Media; In Review; Research in Action; Reports from ERIC.

**At our place** will keep you up to date on the Public Library Association. Notices on workshops, pre-conferences, programs, and national conferences are included as well as reports from the Board of Directors, committees, and sections.
